Dear John,

Wanted to write and say a few things so you might better understand me. I am sharing these ideas with you because I need that someone to share with and there is no one who I think understands better than you, so I share out of the need to do so with a friend and also because as I share more understanding of self comes to me.

At times I play almost the fool when it comes to wisdom or sharing spiritual concepts or I let it manifest as though, that which I have given as dictations or whatever I am not aware of after the fact. In truth I am very much aware but I do this as protection so I can maintain a humanness in people's eyes. If I really shared all I am aware of and all that spirit reveals to me, people would be putting me on pedestals and seeing

me in a light I do not want. I want them to consider the knowledge and not the person. So I play dumb. I am sure in time it will change and I can express more as a man of knowledge but right now I play the role of a source which the higher manifest through, and that is true and I pray the way it will always be, but in the future I won't have to play so "dumb" at times. The reason I feel this will change is because I feel a maturing process in my spirit to physical relationship and feel a lot of changes to the better will come out of this.

I must say "thank you" so much for being there and pushing me into this new light. I may have run away some and may have even forgot your loving pushes some but I feel it has paid off and I thank you for pushing me on. The opportunity you are giving me to stay home and write

I feel is much more than that,  
I feel that you are giving me the time  
I need to grow and mature and become  
spirit focused and in return will  
come the teachings from the Masters.

The more I am able to focus inward  
and upward and free myself from so  
much of the daily world the more  
I will be able to present spirit to  
humanity. I thank you for all of  
this. I hope I can give to you in some way  
all that you have given me in my  
understanding of self and helping me  
first - to see what I need to be doing  
Second - for helping me to do and fulfill.

You know the material I send you <sup>that</sup>  
and that about B. F. & T. H. <sup>Get from you.</sup> I was  
away if it so I am aware of yet a great  
deal more, but when I am asked  
questions I am not supposed to answer,  
or give material people are not yet  
ready for, my mind becomes blank  
telling me the time is not now  
and so I say "we will show more

on that later." Thus it was when  
we talked and you asked about  
Post lives at the time of the Am.  
Revolution, though I was aware  
of it they withdrew that awareness  
when we talked so that I could  
not share it. I am glad they felt  
it was time. Now I am sure you can see  
the real focus of your life and where  
spirit has been leading you to  
all this time. Also you can see why  
I stayed to fulfill what Ken would  
not be able to. I could have died with  
Carmen in 76 but Harold Rex asked  
me and other friends asked me to remain  
and help Loptie and other in Fandston  
because John Davis needed a spiritual  
teacher and Ken K. could not fulfill  
his mission with you & the foundation.

They shared with me that  
darkness of the Atlantian time destroyed  
all the good you and the group had set  
out to accomplish in those days. So  
the time they would give the same energies

the chance to do the destruction but they asked me with them to intercede in their behalf to assure the foundations success. That is why I remained and I feel that my level of service is continuing to expand. It is much like when Jesus went into the desert and was tempted before he began his major service, so the foundation had to be tempted before its real service could begin.

Something that I fully realized this morning is this, as M. Gandhi my death was forewarned me, and I agreed to be a sacrifice to solidify and ground a certain energy here on the physical plane so that the Peace Movement of today would have the energy and force to work with. Up now, I have always feared the public and dealing with people for fear of persecution + death but now that I understand the reason I can better handle it. Not that all fear is gone completely, but I now understand that ~~for~~ fear  
5      which I have still had a struggle

watch the changes ahead in my life  
but as I look over all my prayers  
and writings to God, I asked that He  
move me and mold me and make me  
his instrument, so I must now trust  
Him and move according to His  
will. This can be a challenge for  
often the lower self doesn't want to  
respond totally or give up something  
of self in service and I can see there  
is still a great deal of room for growth  
here.

John, if as I begin to go within and  
move upward in growth & awareness you  
see me getting to space or not having  
contact with this world, "Yank my  
cord and pull me back to Earth," because  
I don't want to lose Balance and  
sometimes others can see things  
more clearly than myself.

Well, before I close - I believe now  
you can begin to grasp the full potential  
of the Foundation and why others have  
worked so hard to get it moving and

really become a workable organization.

John, you are a Master but you are not fully conscious of it, you are though a Master and come here in this life to fulfill certain goals, to create a physical financial base for which other greater services could be accomplished, such as with the foundation. Also, the Broadcast systems you have helped create, and truly you and others in your field, have created a whole new tool of education and communication which has raised man's conscious mind to new mental heights.

Let me turn this over to Cate for he can say it more clearly.

Serve in Light -

Truly you are a Master but as who came in to the physical world to serve man on a physical level. We have already ~~seen~~ revealed much concerning the next 2 life times of mental & spiritual development and then the third life spent in spiritual service -

The Foundation takes all the good you  
what we want to point out here is some  
of the typical service you have completed  
and some you have just begun which  
will also have a major service level  
to mankind.

Through the work you have done and  
the level of quality you have attempted  
to give to the Broadcasting industry  
you have played a major role in the  
upliftment of man's conscious mind  
function and have helped in educating  
men into a new level of being in this  
~~new~~ manner. As well, you have attempted  
to share with those you have been  
involved with in all areas of business  
and personal life a certain level of

8

self awareness and of giving a part  
of self in service to others. Through  
all of this you have greatly changed  
many peoples lives. Now through  
the foundation you are attempting to  
advance this level of service to touch  
more people and more areas of their  
lives. This is why as a physical Master  
you have ~~just~~ created the Empire  
you have, not for self but for others and  
this is why you are now expanding  
that service to reach out in other  
ways to many more souls.

It is why the foundation had to  
9 come into being, for the need to

expand your level of service. Most  
of what you wanted to do as a soul  
of light, you have done within the  
business community of Broadcasting  
and sports and now through the  
foundation your soul reaches out to  
yet greater masses of people in  
greater ways of service. In this  
manner your physical service is  
greatly completed and your higher  
service shall come fuller into light.  
That is reflected in the fact we  
are manifesting our light so much  
now in your life & foundation.

The foundation takes all the good you have attempted to do in Business and personal level and expand it to reach more and with even greater spiritual light. Since you are attempting to finish up your physical mastery and bring the pattern of rebirth to a close it is important you do something with this energy. So the foundation is the way to accomplish this. Great Masters of the Past always leave something of themselves behind to guide mankind forward. That is why the foundation is so important to you as well as humanity.

With the completion of your physical Service you will then be returning, as has been shared with you previously, and Jim will initiate you into your mental and spiritual service. From there we hope you can continue your growth as the pattern of service Jim is to set forth so that the pattern ~~can~~ of spiritual Light Jim sets forth can continue through you & the foundation.

Also one more comment and I must leave, study again the purpose of the Masters of inner Light, especially those of the mental Plane and see if you have not for years been responding to them  
12 on the inner planes and trying to

manifest their wisdom in your  
life of service as John Fitzer. Then  
you can see why we first revealed  
ourselves to you and to the foundation  
before we reveal ourselves to the world.

Love + Light  
Caleb

Hope this clears up something.

In the Master  
Light + Service  
John
